注意: 如果您使用繁體中文, 您可以免費獲得語言援助服務。請致電 (412) 359-6658

Allegheny General Hospital (AGH) opened its doors on Pittsburgh's North Side in 1885. It has evolved from 50 beds inside of two adjoining brick homes into one of the country's premier healthcare institutions. Part of the Allegheny Health Network, AGH is a national leader in cancer, cardiovascular, neuroscience, transplant surgery, and orthopaedic care.

  - Endocrinology
  - Gastroenterology
  - Geriatrics
  - Gynecology
  - Hospitalist care
  - Infectious disease
  - Internal medicine
  - Lupus and autoimmune disease
  - Maternal fetal medicine
  - Nephrology
  - Neurology and neurosurgery
  - Ophthalmology
  - Oral and maxillofacial surgery
  - Orthopaedics
  - Otorhinolaryngology
  - Palliative care
  - Pathology and laboratory medicine
  - Pediatrics
  - Physical medicine and rehabilitation
  - Plastic and reconstructive surgery
  - Psychiatry and psychology
  - Pulmonary and respiratory disease
  - Radiology
  - Rheumatology
  - Reproductive medicine and fertility
  - Surgery, including minimally invasive and robotic-assisted
  - Transplant surgery
  - Urogynecology
- 

## Cancer Institute

Our oncology teams give patients proven treatments, compassionate care, and the support they need to fight cancer. Oncologists research new options for care through more than 200 clinical studies, giving patients access to the best possible outcomes for all types of cancer.

- One of Pennsylvania's largest cell transplant programs
- Clinical cancer genetics
- Medical and radiation oncology
- Neuro-oncology
- Palliative care

## Cardiovascular Institute

Our doctors work closely with each patient to provide the best treatment for cardiac health issues and to prevent heart problems when possible.

- Atrial fibrillation treatment
- Advanced heart and vascular surgery and transplants
- Mechanical heart assistance
- Lung and esophageal surgery

Our patients have access to innovative diagnostic and treatment options through clinical trials, including new medicines, advanced hybrid procedures, and implantable devices designed to monitor disease progression.

## Orthopaedics Institute

Using the most advanced technology and clinical research, we work to help the patients regain strength and flexibility while decreasing pain.

- Concussion care and orthopaedic trauma of spine, feet and ankles, and upper extremities
- Robotic-assisted hip and knee joint replacement
- Sports medicine
- Serving the Pittsburgh Pirates, Pittsburgh Riverhounds, and local school teams

## Emergency medicine

As the first hospital in the region to receive a Level 1 trauma center designation — the highest designation available — we are committed to a fast response for all patients.

- Safe, rapid access to emergency medical care
- Pre-hospital services coordinate with community emergency services
- LifeFlight was the first emergency air transport in the northeastern U.S.

## Neuroscience Institute

Our neurologists use sophisticated medical and surgical techniques to improve patients' prospects for a full recovery. Our groundbreaking trials and research help move innovative treatments forward.

- Stroke care
- Trigeminal neuralgia
- Brain and skull base tumors
- Spine and lumbar conditions
- Epilepsy
- Parkinson's disease

## Transplant Institute

Our organ transplant program provides patient-focused care, innovative research, and groundbreaking medicine for heart, liver, kidney, and pancreas transplant patients.

- Number-one heart transplant center in Pennsylvania
- Ranked among the top 10 heart transplant centers nationally
- Region's best one- and three-year survival rates for heart and liver transplant
