We offer innovative treatments across many medical specialties, delivered with care and compassion.

AHN doctors and clinical specialists work in multidisciplinary teams to provide personalized, comprehensive care for each patient, close to home. We offer guided and streamlined access to clinical trials and the newest therapies.

CANCER INSTITUTE

We treat many types of cancer with the latest advancements in surgery, radiation, chemotherapy, biologic therapy, immunotherapy, genomics, and pathology testing. We continue to adopt new technologies to improve results.

- Patient navigators help coordinate care in over 20 hospital and community locations.
- AHN Cancer Institute – Allegheny General is our primary location to coordinate and advance research, clinical trials, treatment, and medical education.
- We offer access to some of the newest clinical therapies.

CARDIOVASCULAR INSTITUTE

We keep hearts beating using multimodality imaging and treatment with new medicines, advanced hybrid procedures, and implantable devices to fight heart, thoracic, and vascular disease.

- Allegheny General Hospital (AGH) was rated the No. 1 hospital in Southwestern PA for Medical Excellence in Major Cardiac Surgery, Coronary Bypass Surgery, and Interventional Coronary Care.*
- Robotic and minimally invasive surgery can reduce risk and speed recovery after coronary artery, aortic, vascular, and cardiac valve repair and replacement.
- Seven AHN hospitals received the American Heart Association's (AHA) Get With the Guidelines® – Heart Failure Achievement Award in 2021 for delivering the highest quality of heart failure care.
- AGH and Canonsburg Hospital were awarded Silver Plus Achievement from the AHA for excellence in the care of atrial fibrillation.

- In 2021, AGH received the AHA's and Mitral Foundation's Mitral Valve Repair Reference Center Award — one of only 21 facilities in the country to do so.

EMERGENCY MEDICINE

We offer critical 24/7 access to highly skilled emergency care and trauma specialists, coordinating EMS and emergency transport through our Prehospital Care Service team.

- LifeFlight® helicopters from five regional locations provide lifesaving care and fast patient transport.
- Comprehensive stroke centers, certified by the American Heart and American Stroke Associations for safety and quality, offer rapid response time and innovative treatments.

MEDICINE INSTITUTE

We offer treatments for a wide range of conditions, including allergies, lupus, diabetes, Lyme disease, as well as digestive, dental, and skin conditions, breathing and sleep disorders, and more.

- Through the AHN Autoimmunity Institute, a one-of-a-kind program, multidisciplinary teams create and coordinate specialized care plans for patients with autoimmune disorders.
- Our interventional endoscopy team is the only group in the region performing groundbreaking procedures such as endoscopic stricturotomy.

NEUROSCIENCE INSTITUTE

We are an accredited, national leader in providing advanced therapies, proven technologies, and innovative procedures to help patients with complex brain, spine, and neurological conditions.

- We use a patient-centered, multidisciplinary approach to diagnose and treat neurologic disorders.
- Minimally invasive and robotic-assisted procedures help us enhance safety for patients with conditions such as epilepsy, spine conditions, Parkinson's disease, Alzheimer's, and cancer.

ORTHOPAEDIC INSTITUTE

Our high-quality specialized care for orthopaedic injuries and complex musculoskeletal conditions helps patients regain mobility and health.

- For joint replacement, we use muscle-sparing, minimally invasive, robotic-assisted surgery with advanced pain management.
- New therapies for comprehensive, coordinated concussion care offer patients focused treatment plans so they can get back to everyday activities.
- Elite sports medicine specialists help athletes overcome injuries and return to the game.

PEDIATRIC INSTITUTE

AHN Pediatrics provides expert patient care, close to home, for children from birth to age 21. The Pediatric Institute offers:

- Well-child exams, immunizations, and same-day sick visits.
- Treatment for chronic conditions like allergies, asthma, and ADHD.
- Specialized pediatric care for mental health, orthopaedic conditions, and immune system issues.

PRIMARY CARE INSTITUTE

More than 300 AHN primary care physicians across 120 locations provide coordinated, preventive care and condition management. The Primary Care Institute offers:

- Same-day appointments, video visits, 24/7 virtual urgent care, and online scheduling to improve access to care.
- Acute and chronic care services, from dermatologic services and geriatric assessments to mental health care.
- A collaborative team of physicians, nurse practitioners, physician assistants, behavioral health consultants, dietitians, pharmacists, nurses, and health coaches.

PSYCHIATRY AND BEHAVIORAL HEALTH INSTITUTE

We provide the highest quality of patient-centered care, delivered with dignity and respect in a healing environment.

- We use the latest evidence-based therapies, tailored to the specific needs of each child or adult, for a broad spectrum of psychiatric problems.
- We support new and expecting mothers experiencing mood fluctuations or anxiety and build strong maternal-child relationships.

SURGERY INSTITUTE

Through the latest laparoscopic and robotic technologies, more patients have minimally invasive options for surgery, which may give them a faster recovery, less pain, and shorter hospital stay.

- AGH's Institute of Cellular Therapeutics is one of a few centers in the country specializing in islet cell isolation to treat chronic pancreatitis.
- AHN plastic surgeons were the first in the region to perform tongue reconstruction with the da Vinci® SP surgical system.

WOMEN'S INSTITUTE

We care for women throughout their lives with obstetrics, midwifery, five NICUs, primary care, breast care, midlife care, fertility treatments, gynecologic cancer care, advanced gynecologic surgery, pelvic health, bone density testing, and all medical subspecialties.

- At five AHN hospitals, women experience personal nursing care and family-centered childbirth with obstetricians and midwives in our spacious birthing suites.
- We restore health with minimally invasive gynecological surgery and urogynecology and pelvic health treatments.

Allegheny
Health Network

World-renowned expertise

Though Allegheny Health Network (AHN) was established in 2013, its member hospitals share legacies of care that date back 170 years. We provide health care delivery, medical education, and wellness services through an integrated network that includes 14 hospitals (including four neighborhood hospitals), five Health + Wellness Pavilions, affiliated physician offices, ambulatory surgery and outpatient centers, a research institute, home- and community-based health services, and a group purchasing organization.

In 2021, we opened Wexford Hospital, our newest, full-service hospital in the North Hills. In 2022 and 2023, we will also establish the AHN Montour Health and Sports Medicine Center and the AHN North Fayette Health + Wellness Pavilion.
