Allegheny Health Network

West Penn Hospital

AHN.ORG
4800 Friendship Avenue
Pittsburgh, PA 15224

Established in 1848, West Penn Hospital is an academic medical center with an international reputation for excellence and innovation in patient care, education, and research. As part of Allegheny Health Network (AHN), we are the first hospital in the region to achieve Magnet® designation for excellence in nursing services.
Cancer Institute

Our oncology teams give patients proven treatments, compassionate care, and the support they need to fight cancer. Oncologists research new options for care through more than 200 clinical studies, giving patients access to the best possible outcomes for all types of cancer.

— One of Pennsylvania’s largest cell transplant programs
— Clinical cancer genetics
— Medical and radiation oncology
— Neuro-oncology
— Palliative care

Cardiovascular Institute

Our doctors work closely with each patient to provide the best treatment for cardiac health issues and to prevent heart problems when possible.

— Atrial fibrillation treatment
— Advanced heart and vascular surgery and transplants
— Mechanical heart assistance
— Lung and esophageal surgery

Our patients have access to innovative diagnostic and treatment options through clinical trials, including new medicines, advanced hybrid procedures, and implantable devices designed to monitor disease progression.

Women’s Health

In our labor and delivery unit, women experience family-centered childbirth in spacious, comfortable birthing suites. We have a Neonatal Intensive Care (NICU) for fragile or critically ill newborns. Women can get compassionate, personal health care through all stages of their lives.

— Obstetrics, labor, and delivery
— Restorative pelvic medicine
— Gynecologic cancers
— Level III Neonatal Intensive Care (NICU)
— Perinatal depression behavioral health
— Fertility issues
— Reproductive endocrinology

Orthopaedic Institute

Using the most advanced technology and clinical research, we work to help the patients regain strength and flexibility while decreasing pain.

— Concussion care and orthopaedic trauma
— robotic-assisted hip and knee joint replacement
— Sports medicine

Burn Center

Only center in the region certified by the American Burn Association and the American College of Surgeons for pediatric and adult burn victims. Our specialists treat patients with burns, soft tissue disorders, and other non-healing wounds using the latest surgical techniques and treatments.

— Triage process admits patients directly for faster care
— Specialized treatment programs for children
— Care for physical and psychological injuries
