Established in 1978, Forbes Hospital is the only full-service hospital in the eastern Pittsburgh suburbs, providing comprehensive services and specialists so patients can get the care they need right in their own community. As part of the Allegheny Health Network (AHN), we bring the specialty care and cutting-edge medical treatments of academic hospitals right to our local communities.
Cancer Institute

Our oncology teams give patients proven treatments, compassionate care, and the support they need to fight cancer. Oncologists research new options for care through more than 200 clinical studies, giving patients access to the best possible outcomes for all types of cancer.

- One of Pennsylvania’s largest cell transplant programs
- Clinical cancer genetics
- Medical and radiation oncology
- Neuro-oncology
- Palliative care

Orthopaedic Institute

Using the most advanced technology and clinical research, we help the patients regain strength and flexibility while decreasing pain.

- Concussion care and orthopaedic trauma
- Robotic-assisted hip and knee joint replacement
- Sports medicine

Cardiovascular Institute

Our doctors work closely with each patient to provide the best treatment for cardiac health issues and to prevent heart problems when possible.

- Atrial fibrillation treatment
- Advanced heart and vascular surgery and transplants
- Electrophysiology services
- Mechanical heart assistance
- Lung and esophageal surgery

Our patients have access to innovative diagnostic and treatment options through clinical trials, including new medicines, advanced hybrid procedures, and implantable devices designed to monitor disease progression.

Women’s Health

In our labor and delivery unit, women experience family-centered childbirth in spacious, comfortable birthing suites. We have a Level II Neonatal Intensive Care (NICU) for fragile or critically ill newborns. Women can get compassionate, personal health care through all stages of their lives.

- Obstetrics, labor, and delivery
- Restorative pelvic medicine
- Gynecologic cancers
- Fertility issues
- Reproductive endocrinology
- Minimally invasive and robotic assisted surgery

Emergency Medicine

Community residents rest easy knowing that full-service emergency care is close to home. As a Level II Trauma Center, we are committed to a fast response for all patients, with rapid access to medical care.

Our pre-hospital services are the Paramedic Response Unit for surrounding communities with a full-time EMS medical director and 24/7 in-house emergency communications center. We can quickly and efficiently provide pre-hospital transport and quality pre-hospital care.

Our air medical service, LifeFlight, the first in the northeastern U.S., provides emergency care and transportation.
