## Personalized Primary Care Services

We all want to stay healthy. The best way to do that is to get routine checkups and receive basic medical care and preventive services from a primary care physician who gets to know his or her patients. The Wexford Health + Wellness Pavilion has primary care physicians on staff to offer quality healthcare and access to specialized care through the Allegheny Health Network.

### **Focused Patient Care**

The Primary Care services at the Wexford Health + Wellness Pavilion put patients at the center of the healthcare experience by offering several amenities for convenient service. A concierge service is available to assist with the registration process and provide a written itinerary to the patient that lists his/her appointments. Valet services and open-air covered parking and a staffed playroom are also available onsite. Patients needing additional services have access to advanced imaging, specialty care, lab testing and a pharmacy.

### **Convenient Hours**

The Wexford Health + Wellness Pavilion offers expanded hours and walk-ins are accepted for primary care, lab and imaging services.

### **Hours of Operation:**
