### About the Wexford Health + Wellness Pavilion

The Wexford Health + Wellness Pavilion provides local residents with new opportunities to access a wide range of high quality, convenient diagnostic medical and surgical services in a comfortable and appealing atmosphere that focuses on health and wellness. By offering free open air covered parking, a concierge service and a coordinated registration process, healthcare needs from a simple check-up to outpatient surgery can be met in a single location. Patients can also take advantage of amenities including a café, demonstration test kitchen, physical therapy site featuring a track and a therapy pool, staffed Austin's Playroom and an outdoor plaza and walking trail.

The Wexford Health + Wellness Pavilion provides multidisciplinary care to adolescents and adults with autoimmune and musculoskeletal diseases. Our rheumatologists are recognized internationally for their expertise in the diagnosis and management of arthritis and autoimmune diseases.

The renowned physician team provides care for:

- Rheumatoid arthritis
- Systemic lupus erythematosus
- Polymyositis and dermatomyositis
- Psoriatic arthritis
- Vasculitis
- Sjogren's syndrome
- Scleroderma
- Osteoporosis
- Lyme disease
- Crystal-induced arthritis (gout, pseudogout)
- Osteoarthritis
- Bursitis and tendinitis

## Research in Rheumatic Diseases

In tandem with providing state-of-the-art comprehensive clinical care for these and other rheumatic conditions, our team's cutting-edge clinical and laboratory-based research addresses the following:

- Identifying the causes of rheumatic conditions and their associated complications, with the goals of improved quality of life and disease prevention
- Developing new laboratory tests to facilitate the diagnosis and management of autoimmune diseases to improve patient care
- Evaluating new and innovative therapies for rheumatic diseases to improve and expand effective treatment options while minimizing side effects

## Centers of Excellence- Excellent Care, Centered on You

A cornerstone of our rheumatology services dedicated Centers of Excellence that are fully focused on the treatment of specific autoimmune conditions.

Our dedicated Centers of Excellence are the cornerstone of our rheumatology services and are fully focused on the treatment of specific autoimmune conditions.

Our centers provide multidisciplinary care with integrated physician teams who coordinate care across all aspects of autoimmune conditions.

- **The Lupus Center of Excellence** is dedicated to accelerating a cure for lupus while providing comprehensive care in all aspects of this disease. This center's leaders utilize a ground-breaking new testing method to diagnose lupus and help predict lupus flares. This tool is revolutionizing the care of patients with lupus.
- **The Center for Bone Health** utilizes a multidisciplinary team comprised of physicians with expertise in rheumatology and endocrinology. Focusing on the care of patients with osteoporosis and other metabolic bone diseases, this center provides a thorough assessment of bone health, risk factors for osteoporosis and care of bone-related conditions such as osteoporosis that are tailored to individual needs.

## Renowned Physicians Practicing in Your Community

The Wexford Health + Wellness Pavilion provides access to Allegheny Health Network physicians, who are not only among the most experienced specialists in the country, but dedicated to bringing superior care to the North Hills community.
